PROJECTS / OPEN-SOURCE

CHAT APP | LINK   React, Firebase, JavaScript

  A quick discussion on the Chat App. The project was built using React for the frontend and Firebase for
  the backend, Firebase Realtime Database, Firebase Email and Password Authentication, and React
  Context API were used for global state. In this project, pages were styled using pure CSS.

MERN SOCIAL MEDIA APP | LINK   React, Node, Express, Mongodb, Socket.io

  The project was built using the MERN stack.
  React was used for the frontend, and Redux was used for global state management
  all application styed using pure CSS.
  Node.js, Express server , and MongoDB database were used for the backend.
  Socket.io was used for real-time communication. JSON Web Token (JWT) was used for authentication.

SOCIAL MEDIA SITE | LINK   Django, Sqlite, HTML, CSS, JavaScript, Bootstrap

  A quick discussion on a social media site built on the MVT pattern, MySQL database, Django
  authentication, Django ORM, HTML, and CSS, and deployed on PythonAnywhere.

SHOPPING CART | LINK   Angular, Typescript, Material UI

  I made a shopping cart project using Angular, Material UI, and the Fake Store API.
